

## FIORI

SAP FIORI IS A NEW USER INTERFACE THAT IS RADICALLY CHANGING THE WAY THAT PEOPLE INTERACT WITH THE SAP ERP.

### WHO IS IT FOR?

All companies.

### FOCUS

Front-End that works across all business areas.

### MAIN BENEFITS

+ Simple  
+ Fast  
+ Productive

## WHY SAP FIORI ?

- It increases productivity by simplifying and automating everyday tasks on any device.

- It is user-friendly and employees like it because of its appealing design and task-specific customisation.

- It improves the quality of the input data because it makes this data easier to create.

- It requires shorter user training and adaptation time thanks to its simple screens that have been specifically constructed for each role.

- It is easy to extend or create an application in Fiori, using the built-in development tools.

## SAP FIORI CAPABILITIES

### ROLE ORIENTED

Deliver the right information at the right time via a multi-faceted user interface.

### RESPONSIVE

Get the same information instantaneously, irrespective of the device you are using (PC, tablet or smartphone).

### COHERENT

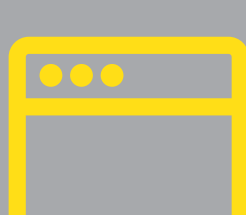

The user interface is the same throughout the company, whether you are creating a sales order or reviewing the latest KPI.

### SIMPLE

Each task or activity is simplified and requires far less execution time.

### SATISFACTION

Enrich the user experience with Fiori apps.

## LICENSING

SAP Fiori is included with your existing SAP ERP licence. Contact Procensus if you would like more information on how you can begin to take advantage of SAP Fiori.

## TECHNICAL CAPABILITIES

### SUPPORT FOR MULTIPLE DEVICES, WITH DIFFERENT FORMS AND SIZES

Maximizes app usability through a responsive design.

### ROLE-BASED AUTHORISATION AND AUTHENTICATION

Use of a secure SSO (Single Sign On) for all devices.

### DEVELOPMENT

Allows for the rapid design, construction and deployment of SAP Fiori apps for browsers and mobile devices through embedded tools, such as the SAP Web IDE toolkit.

### BASED IN SAPUI5

HTML5 and Javascript.

### SAP FIORI LAUNCHPAD

Delivers access to all apps from a central launch pad that can be customised for each user.

### DATA READING AND WRITING

Delivers access to back-end data via Odata (RESTful) services.

### MOBILITY

In SAP Fiori, the apps can be automatically accessed on any mobile device via the internet.

simplify your business.  
together.
